

## Integrity of our Product Ranges & Beauty Treatments

At Aroma Spa we do not just use products out of a bottle or the same regime for every skin type/symptom. We treat the cause of the problem (with medicinal ingredients) and the symptoms usually subside. This is why our motto is 'Beauty & Health from the Inside Out'. We use professional grade holistic, chemical free & organic products whenever possible, incorporating therapeutic grade essential oils. Our products maximise benefits by providing pure nutrition to your skin which boosts its health, vitality and immunity. Because our products do not contain harmful chemicals, artificial ingredients, fillers, colourants or animal testing, we can provide ultimate beauty treatments without compromising your health, the health of the environment or anything on this planet.

Our own range 'Green Remedies' was derived to deal with everyday niggles and disorders naturally. It contains ingredients that still have their 'life force' therefore more active, healing and with instant results. The range is made up of specially formulated bases where we add 'individualised' healing essential oils & herbal extracts for customised treatments.

Our services are also available mobile. We can come to your location being home, workplace, yacht - whatever! We can provide as many therapists as necessary for hens parties, girls nights, corporate functions and other events. Minimum charge is \$85 for 1 hour treatment (Minimum \$25 call out fee greater Auckland)
